Dear Applicant,

Thank you for your interest in organising a Satellite Event within the Festival of the New European Bauhaus 2026.

We are pleased to inform you that your application to organise a Satellite Event has been accepted.

Satellite Events are an important part of the Festival programme, connecting Festival participants to NEB-aligned events across Europe and beyond. While these events are organised independently, we are keen to support you in your communication actions and ensure a good exchange of knowledge with the main Festival venue.

All Satellite events will be included in a dedicated section of the Festival website, and will receive a comprehensive communication toolkit in March that includes visual identity resources, web banners, editable social media templates, and approved imagery. Some of the Satellite Events will also be featured in the Festival communication channels.

With the aim of giving further visibility and to better integrate these events into the main programme, a live connection will be established from the main Festival stage with a selection of Satellite Events. This selection has not yet been finalised, and will take place as part of the overall programming of the Festival, which aims to integrate all strands in a meaningful way. Organisers of the selected Satellite Events will be contacted in the coming weeks.

Additionally, please note that all future communication regarding the organisation of Satellite Events will be managed by an external contractor supporting the European Commission in organising the NEB Festival 2026. Communication will be conducted via the dedicated email address: Satellite-NEB-Festival2026@spectraconsortium.eu

Best regards,

NEB Festival organising team
